

## Level 8/9R (Rotator) Certification Training Course Outline

### LEVELS 8 & 9 R - CLASS OUTLINE

1. **REVIEW of LEVELS**
  - . Additional resistance problems
  - . Theoretical and Practical Applications
2. **LOAD ANGLE MULTIPLIER**
  - . Calculating the angle at the load
  - . Theoretical and Practical Applications
  - . Determining Effects on bridles
  - . Clotheslining
3. **ONE LANE PARALLEL UPRIGHTING**
  - . Techniques and Application
  - . Various Uprighting Procedures
  - . Tractor and Twin Trailers (Doubles)
4. **INCIDENT MANAGEMENT**
  - . Communication - Execution
  - . S.C.E.N.E
  - . Lane Closure - Relocating
5. **ROTATOR**
  - . Center of Gravity
  - . Rotator setup and stabilization
  - . Front, Rear and Side Lifting
  - . Rigging
6. **DECKING and UN-DECKING TRAILERS**
  - . Understanding forces
  - . Technique - Spreader bars
7. **EMPTY & LOADED TANK TRAILERS**
  - . Tankers, van trailers, trucks and buses
  - . End-rolling Techniques
8. **WINCHING DYNAMICS**
  - . Compound lay-ups
  - . Front, Rear and Side winching of straight trucks and tractors-trailers
9. **REVIEW and EVALUATION**
  - . Closing comments and examination
